

Genuine Hino Wiper Blade Kits

New Zealand's weather conditions are as diverse as it gets. Throw in the odd road works and the old wiper blades get a fairly hard time. Worn wiper blades can compromise visibility putting both occupants and other road users at risk.

We have a solution - Genuine Hino Wiper Blade Kits. The kit comes with a complete set of genuine Hino Wiper Blades as well as a free 473 ml bottle of Cyclo All Season Windshield Washer Solvent.

Genuine Hino Wiper Blades offer easy installation, great performance, superior visibility, reduced noise and a long service life. With prices like these, why wouldn't you go genuine?
